TECHNICAL SKILLS

Languages: Java, JavaScript, Node.JS , Bash, C, HTML/CSS, Python(basics)
Developer Tools: Linux [primary:Arch], Git/Github, Neovim, Vim, Termux, hoppscotch/postman, github pages, Nginx, Shell scripting, tmux, zsh
System Operations: Package management, rsync, syncthing, tailscale, Openssh, htop / btop / auto-cpufreq / lm-sensors
UI / Display Compositors: TTY, GRUB-res, [XORG] DWM, xfce, Gnome, KDE, [Wayland] Hyprland,

EXPERIENCE

Cyber Security Intern [onsite] Netty Brains - Performed Linux - System Administration onsite - Conducted remote system maintenance to ensure uptime and security - Genuine Hands-on experience with CPU hardware troubleshooting and maintenance	Mar 2023 – June 2023 Bengaluru , India
Industrial Training at Intel Unnati Program - Conducted Research on image pixels processing and analysis - Explored and Utilized open source software (FOSS), including FFMPEG and UPSCAYL	May. 2024 – July. 2024 [virtual]

Achievements

Reached the GRAND FINALE in Terra Tech NATIONAL level Hackathon	Mar. 2024
First prize in TECHBIZ@SJP STATE Level Inter-College coding competition	May. 2023
Achieved 2nd prize in State level paper presentation held at VET College	Feb. 2024
5 Star C language badge in Hacker Rank	2021
Published a paper on “Temporal Analysis and CWE Code Prediction for Software Vulnerabilities using Machine Learning” at the 8th IEEE internal conference on CSITSS Paper ID - 943 [Paper - Link]	Aug. 2020 - Dec. 2024
Was able to Install proprietary NVIDIA Drivers [for Arch Linux] in 2024 for GT 710 [which was brought around 2016]	Nov. 2024

PROJECTS

GITHUB:[ksurajsingh/<project-name>](#)

Bat [early] Developing a Termux API script to send emergency SMS with GPS location (lat/long, altitude, speed) when Android battery drops below 10%. - Works 100% offline - Uses Termux API (Android terminal emulator) - Retrieves full GPS details without internet - Adds low-battery alerts unlike standard map apps Minimalistic codebase for efficiency	emergency Feb. 2025 – Present
CLI alternative to Syncthing [Matured Stable] - Works across devices of any brand using Tailscale (no same-network requirement) - Saves ~10% time per transfer Provides notifications when manual intervention is needed - Maintains SFTP connections across devices with dynamic IP Supports media playback - Works with external peripheral devices (EPI) as a native shell	dot-files May 2018 – May 2020
CertiCrypt [stable] v0.3.0 CryptoGraphically Certified Academic Records	certicrypt June 2025 - present
Shadow_Clone [mature] v0.1.0 Developed a custom ArchInstall script including setup for two display compositors Certificates: NPTEL - Information Security 5 , NPTEL – DSA in Java	shadow_clone May. 2025 - present

EDUCATION

RV College of Engineering Bachelor of Engineering, Computer Science, Cyber Security	CGPA: 8.52	Bengaluru, India Dec. 2023 – present
VET BVL Polytechnic Diploma in Computer Science and Engineering	CGPA: 9.88	Bengaluru, India Dec. 2020 – Apr. 2023
